

Nursing Assistant
LABORATORY RULES

The nursing lab is a professional, clinical setting. We feel confident that your behavior will reflect that environment.

1. Students are to be courteous and respectful to each other as well as the equipment and supplies used in the lab.
2. Horseplay of any type will not be tolerated.
3. The beds are used for activities related to course content. Students are not to sit/lay on beds unless asked to do so by instructor.
4. No equipment and supplies are to be used without proper instruction and/or permission. Misuse/abuse of equipment or supplies can cause injury and will subject the student to disciplinary action.
5. The laboratory area is to remain ready for use at all times. All students are expected to clean up after themselves.
6. All students are to be aware of noise level within lab area. All students have to be able to hear the instructors' directions at all times.
7. Time in the lab area is to be used wisely. Students are to remain on task and use lab time for the assigned purpose only. This includes practicing of skills and skill check-offs.

I have read and understand these rules. I agree to abide by these rules at all times, failure to do so will earn me a ZERO for the first two occurrences. The third occurrence will earn me a referral and subject me to further disciplinary action.
